UNITED STATES DEPARTMENT OF AGRICULTURE

SOIL CONSERVATION—INDEX TO VOLUME VI

JULY 1940 TO JUNE 1941

Page	Page
"A Heritage We Guard" (movie), making. William R. Van Dersal.....	78-81
ABBOT, H. D.: National Defense and the C. C. C. ....	117-119
ADERHOLD, O. C.: A New Approach to Training Leaders in Farm Planning.....	107-110
Agriculture—	
Hopi, water conservation in. Guy R. Stewart and Ernest A. Nicholson.....	45-48, 51
modern, agronomic instruction for. Ide P. Trotter.....	183-185
Agronomic instruction for modern agriculture. Ide P. Trotter.....	183-185
Airplane, use in range seeding. F. A. Mark and J. R. Roaf.....	270, 272
ALBERTS, H. W.: Pastures in Puerto Rico.....	15-18, 23
ALLRED, B. W.: Crested Wheatgrass in Competition with the Native Grassland Dominants of the Northern Great Plains.....	59-63
Archives, from old Venice. Lois Olson.....	265-268
Arkansas—	
central Crowley Ridge Soil Conservation District, report.....	302
Craighead County, soil conservation projects.....	302
Pocahontas, Tri-River Soil Conservation District, report, December 31, 1940.....	318-322
Arkansas State College, cooperative soil conservation projects.....	302
ATKINS, S. W.: Economic Consequence of Conservation. 165-168	
AUSTIN, WAYNE W.: Strawberry Clover in the Northern Great Plains.....	35-37
Bankers—	
four-fold obligation. W. Judd Wyatt.....	238-239
part in soil conservation districts. Walter S. Cothran. 207-208	
BARNES, GEORGE A.: Conservation and the Classroom.....	87-88
BARRACLOUGH, K. E.: Why New Hampshire Needs a Soil Conservation Districts Law. With J. L. Haddock and Ford S. Prince.....	226-227, 237
Barriers, trash, use and limitations. Robert L. Davis.....	24-25
BARTHOLOMEW, R. P.: Kudzu, a Soil Builder.....	335
Bench terraces, of Mucara clay, tillage tests. Robert L. Davis.....	21-23
BENNETT, H. H.:	
A New Farm Movement Takes Rapid Root.....	191-196
citation of new tillage methods.....	314-316
statement on conservation of our natural resources.....	311
statement on growth of Turkey Creek district. See Back cover, February-March issue.	
Thirty Years of Vertical Farming.....	113-115, 122
tribute to C. C. C. on eighth birthday.....	263
Tzintzuntzan to Singapore.....	53-57, 67
BLACK, C. D.: Cooperators Appraise Conservation Program.....	316-318
BOND, R. M.: Rodentless Rodent Erosion.....	269
Book reviews and abstracts. Phoebe O'Neill Faris. Each issue except July, October, December, and January.	
BREGGER, JOHN T.: New Conservation Practices Replace the Old in the Peach Orchard.....	161-163, 164
BROWN, CARL B.: Protecting Reservoir Watersheds Through the Districts Program.....	230-232
BRUSH, use for erosion control. R. E. Wilson.....	152-153
Buffalo-grass seed, collection and processing. Dennis E. Griffith.....	132-133
BUIS, EUGENE C.: Water Conservation in an Irrigation System.....	74-75
CALKINS, HUGH G.: A Range Conservation Demonstration in the Land of the Navajos. With D. S. Hubbell.....	64-67
Channels, terrace outlet, vegetative protection. W. López-Domínguez.....	19-20
CHARLES, F. E.:	
83,000 Pines Are Planted on Dewey Hill. With Ewing Jones.....	309-312
statement on the educational service of Tennessee Department of Conservation.....	103
Tar Hollow Conservation-Teaching Laboratory.....	104, 106
CHRIST, J. H.: Timber and Cut-Over Land Problems in the Pacific Northwest.....	153-155, 164
Churches, prosperity, relation to soil conservation. Charles G. Webb.....	169-171
Civilian Conservation Corps—	
and national defense. H. D. Abbot.....	117-119
eighth birthday. G. H. Gilbertson.....	262-264
enrollees, courses offered at Vista, Calif.....	313
open letter to Director of Soil Conservation Service.....	37
Classroom and conservation. George A. Barnes.....	87-88
Clay, Mucara, on bench terraces, tillage tests. Robert L. Davis.....	21-23
CLIFFORD, R. C.: An Attempt at Water Spreading in Puerto Rico.....	25-26, 30
Climate of Southwest, relation to accelerated erosion. C. W. Thornthwaite, C. F. S. Sharpe, and Earl F. Doseh. 298-302, 304	
Clover, strawberry, in northern Great Plains. Wayne W. Austin.....	35-37
Clovers, value in soil conservation work. See Back cover, April issue.	
CRAWFORD, G. L.: Soil Conservation Program in Puerto Rico.....	3-6
Congress Heights, D. C., school, soil-conservation studies	
110, 111	

Page	Page
COOKE, MELVILLE H.: Putting the District Idea to Work on Michigan's Lake Shore..... 216-219	82
Reclamation and Protection of Danish Heath Areas..... 39-42	136
Self-Governing Principles of Soil Conservation Districts..... 156-160, 164	123-128
COLLIER, GEORGE W.: Size of Farm and the Soil Conservation Program..... 71-73, 77	165-168
COMBS, L. R.: Defense—From Ridge to River..... 286-290	149-151
Conservation—	133-134
and the classroom. George A. Barnes..... 87-88	
education in the Southeast. Bert D. Robinson..... 91-93, 95	
practices, new, replace old in the peach orchard. John T. Bregger..... 161-163, 164	
soil. See Soil conservation.	
teaching laboratory at Tar Hollow. F. E. Charles..... 104, 106	
water. See Water conservation.	
Conservationist, look at conservation farming. Harry C. Diener..... 259-261	
COTHRAN, WALTER S.: The Banker's Part in Soil Conservation Districts..... 207-208	
Crop rotations, importance in soil conservation program..... 128	
Cropping, strip, in land of thoroughbreds. Ewing Jones..... 38, 51	
Curriculum and soil conservation. Cyril W. Grace..... 96-97, 106	
Dairy Industry, Bureau of, milk research..... 37	
DALE, TOM:	
A District Saves Water Where It Falls..... 213, 232	
It Can Be Done..... 233-235, 237	
Soil Conservation in Elementary and Secondary Schools..... 101-102	
Danish Heath Areas, reclamation and protection. Melville H. Cohee..... 39-42	
DAVIS, KENNETH S.: The Munson Conservation District—An Example of Democracy at Grass Roots..... 220-223	
DAVIS, ROBERT L.:	
Tillage Tests on Bench Terraces of Mucara Clay..... 21-23	
Trailing Indigo, A Promising Leguminous Forage Plant. With Bernardo Piol Villalobos..... 29-30	
Use and Limitations of Trash Barriers..... 24-25	
DAVISON, VERNE E.: <i>Lespedeza sericea</i> for Road Cuts and Fills..... 186-188	
DENMARK, reclamation and protection of heath areas. Melville H. Cohee..... 39-42	
Dewey Hill, planting 83,000 pines on. F. E. Charles and Ewing Jones..... 309-312	
DIENER, HARRY C.: A Conservationist Looks at Conservation Farming..... 259-261	
DIMMICK, DEWEY: Acoma and Laguna Indians Adjust Their Livestock to Their Range..... 130-131	
DITCHES, interception, protection of back slope. Charles B. Sullivan..... 333-334	
DITTMER, HOWARD J.: A Quantitative Study of the Subterranean Members of Soybean..... 33-34	
DOMINGUEZ, W. LÓPEZ: Vegetative Protection of Terrace Outlet Channels..... 19-20	
DOSCH, EARL F.: Climate of the Southwest in Relation to Accelerated Erosion. With C. W. Thornthwaite and C. F. S. Sharpe..... 298-302, 304	
Drainage, farm, operations for the farm planner. John G. Sutton..... 323-327	
Dunes, sand. See Sand dunes.	
EASTWOOD, LENORA E.: Kikuyu Grass..... 82	
Ecological thinking, definition. Edward H. Graham..... 136	
Ecology and land use. Edward H. Graham..... 123-128	
Economic consequence of conservation. S. W. Atkins..... 165-168	
Economy, farm, and farm woodland. John F. Preston..... 149-151	
EDMISTON, F. S.: Education in District Operation..... 133-134	
Education—	
conservation, in the Southeast. Bert D. Robinson..... 91-93, 95	
in district operation. F. S. Edmiston..... 133-134	
Electric power, aid to soil conservation. Harry Slattery..... 252-254, 258	
ELLIOTT, JOEL W.: How Erosive Effects of Intensive Rains on Steep Slopes May Be Decreased..... 12-14	
ELWELL, HARRY M.: Land Reclamation and Pasture Investigations on Abandoned and Scrubby Oak Areas..... 328-331	
Enrollees, C. C. C., courses offered at Vista, Calif..... 313	
EROSION—	
accelerated, relation to climate of Southwest. C. W. Thornthwaite, C. F. S. Sharpe, and Earl F. Dosch..... 298-302, 304	
control by use of brush. R. E. Wilson..... 152-153	
effects of intensive rains on steep slopes, decreasing, methods. Joel W. Elliott..... 12-14	
rodentless rodent. R. M. Bond..... 269	
soil, damage to public water supply. Alexis N. Garin..... 178-180	
soil, in Greece. Constantine I. Nevros..... 129	
FARIS, PHOEBE O'NEALL: Book Reviews and Abstracts. Each issue except July, October, December, and January.	
Farm—	
drainage operations for the farm planner. John G. Sutton..... 323-327	
economy and farm woodland. John F. Preston..... 149-151	
equipment, saving through soil-conserving practices. Richard H. Flynn..... 49-51	
movement, new, taken rapid root. H. H. Bennett..... 191-196	
old, new hope for. Walter W. John..... 236-237	
planning—	
for farm drainage operations. John G. Sutton..... 323-327	
training leaders in, a new approach. O. C. Aderhold. 107-110	
size, and soil conservation program. George W. Collier..... 71-73, 77	
woodland and farm economy. John F. Preston..... 149-151	
Farmer evaluation of conservation practices in Southern Great Plains. H. H. Finnell and Theodore A. Neubauer..... 172-173	
Farmers—	
guiding by use of colored land-use maps. Walter W. John..... 236	
of, by, and for. A. E. McClymonds..... 203-206, 208	
they knew what they wanted. Frank B. Harper and Harold E. Russell..... 209-212	
working together, Tombigbee-Warrior district. John C. Sloane..... 249-251, 264	
Farming—	
conservation, view of conservationist. Harry C. Diener..... 259-261	
slope, seeking answers to, recommendations..... 2	
vertical, thirty years. H. H. Bennett..... 113-115, 122	
Fertilizer conference in southern New England. A. T. Semple..... 278-283	
Field unit planning. Harry H. Gardner..... 235-258	
FINNELL, H. H.: Farmer Evaluation of Conservation Practices in Southern Plains. With Theodore A. Neubauer. 172-173	

Page	Page		
Five years of tree planting in the Ohio Valley. J. A. Gibbs.....	146-149	Heath areas, Danish, reclamation and protection. Melville H. Cohee.....	39-42
FLORY, E. L.: Fluctuating Forage Production. Its Significance in Proper Range and Livestock Management on the Southwestern Ranges. With J. L. Lantow.....	137-144	HAROZ, A. M.: District Gives Blow Land New 95-Year Lease on Life.....	275-276
FLYNN, RICHARD H.: Soil-Conserving Practices Save Farm Labor, Power, and Equipment Use.....	49-51	High Plains area, tree survival in. Charles G. Van Gorder.....	180-182
Forage— plant, leguminous, outlook for trailing indigo. Robert L. Davis and Bernardo Fiol Villalobos.....	29-30	HUBBELL, D. S.: A Range Conservation Demonstration in the Land of the Navajos. With Hugh G. Calkins.....	64-67
production, fluctuating, significance in proper range and livestock management on southwestern ranges. J. L. Lantow and E. L. Flory.....	137-144	HURD, F. S.: District Operation From a Supervisor's Standpoint.....	197-201
Forest trees, seed-spotting, adaptation of potato planted to. H. D. Petheram.....	76-77	Ice plant, growing for soil conservation control work. See Back cover, December issue.	
Forty acres, a good living on. A. L. Harrell.....	307-308, 312	Ice storm in Texas. H. K. Rouse.....	241-242, 248
4-Club work in kudzu seed distribution.....	225	Income, maintaining, and saving soil. David H. Walter. 174-177 Indians— Acoma and Laguna, adjustment of livestock to their range.	
Galleta, productivity, increase in Colorado, Kannah Creek area.....	201	Dewey Dismuke.....	130-131
GARDNER, HARRY H.: Field Unit Planning.....	253-258	cause of great grassland plains.....	145
GARIN, ALEXIS N.: Soil Erosion Damages Public Water Supply.....	178-180	Indigo, trailing, a promising leguminous forage plant. Robert L. Davis and Bernardo Fiol Villalobos.....	29-30
GARRETT, E. B.: A Once-In-A-Hundred Years Rain. 228-229, 239		Initiative, maximum exercise of, statement by Claude R. Wickard.....	173
Geologist, practice of soil conservation. H. Andrew Ireland.....	305-306, 312	Instruction, agronomic, for modern agriculture. Ide P. Trotter.....	183-185
GIBBS, J. A.: Five Years of Tree Planting in the Ohio Valley.....	146-149	IRELAND, H. ANDREW: A Geologist Practices Soil Conservation.....	305-306, 312
GILBERTSON, G. H.: Civilian Conservation Corps' Eighth Birthday.....	262-264	Irrigation system, water conservation. Eugene C. Buie. 74-75	
GRACE, CYRIL W.: The Curriculum and Soil Conservation.....	96-97, 106	JARRETT, CHARLES D.: Key Spot Project in Nevada.....	277-278
GRAHAM, EDWARD H.: Ecology and Land Use.....	123-128	JOHN, WALTER W.: Colored Land-Use Maps Guide Farmers.....	236
What is Ecological Thinking?.....	136	New Hope for an Old Farm.....	236-237
Grass— and associated vegetation to reclaim Oregon's coastal sand dunes. T. A. Steele.....	43-44	Schools Teach Lessons From the Land.....	102-103
Kikuyu. Leonora E. Eastwood.....	82	The Land Comes First.....	224-225
Grasses, perennial, value as soil conservation plants.....	37	JOHNSON, C. C.: Summer Planning for Winter Studies. With Frank B. Harper.....	105-106
Grassland— dominants, native, competition with crested wheatgrass of Northern Great Plains. B. W. Allred.....	59-63	JOHNSON, J. A.: Planting <i>Lespedeza sericea</i> With Black Locust.....	331-332, 334
plains, reasons for statement of W. G. McGinnies.....	145	JOHNSON, J. W.: The Transportation of Sediment by Flowing Water and Its Importance in Soil Conservation. 290-293 Johnson grass, possibilities in northwest Texas. Henry M. Pevehouse.....	68-70, 77
Great Plains, Northern, native grassland dominants, competition with crested wheatgrass. B. W. Allred.....	59-63	JONES, EWING: 33,000 Pines Are Planted on Dewey Hill. With F. E. Charles.....	309-312
Greece, soil erosion in. Constantine I. Nevros.....	129	Strip Cropping in the Land of the Thoroughbreds.....	38, 51
GRIFFITH, DENNIS E.: The Collection and Processing of Buffalo-Grass Seed.....	132-133	KENTUCKY, a strip cropping in. Ewing Jones.....	38, 51
HADDOCK, J. L.: Why New Hampshire Needs a Soil Conservation Districts Law. With K. E. Barraclough and Ford S. Prince.....	226-227, 237	KINCANNON, W. G.: Rio Grande de la Plata and Soil Conservation.....	9-11, 20
HARPER, FRANK B.: Cheney Laboratory School.....	112	KING, BARRINGTON: Hard Work But No Hard Times. 244-248	
Gold and Green on the Palouse Hills.....	294-297	KUDZU, a soil builder. R. P. Bartholomew.....	335
Summer Planning for Winter Studies. With C. C. Johnson.....	105-106	Labor, farm, value of soil-conserving practices. Richard H. Flynn.....	49-51
They Knew What They Wanted. With Harold E. Russell.....	209-212	Laboratory— conservation-teaching, at Tar Hollow. F. E. Charles. 104, 106 school at Cheney. Frank B. Harper.....	112
HARRELL, A. L.: A Good Living on 40 Acres.....	307-308, 312	Lake Shore, of Michigan, putting the idea of soil conservation to work on. Melville H. Cohee.....	216-219

Land—	Page	Page
as a textbook. Anne Raymond.....	98-100	
blow, new 95-year lease on life through soil conservation		
district. A. M. Hedge.....	275-276	
comes first. Walter W. John.....	224-225	
cut-over, problems in Pacific Northwest. J. H. Christ		
153-155, 164		
lessons from, teaching in schools. Walter W. John... 102-103		
reclamation on abandoned and scrubby oak areas. Harry		
M. Elwell.....	328-331	
safer uses for. A. T. Semple.....	334	
use and ecology. Edward H. Graham.....	123-128	
use and the modern school. Julia B. Tappan.....	88-89	
use, relation to church prosperity and conservation.		
Charles G. Webb.....	169-171	
<b>LANDRON, JORGE J.:</b> Some Puerto Rican Soils and Their Use		
Capabilities.....	31-32	
<b>LANTOW, J. L.:</b> Fluctuating Forage Production. Its Significance in Proper Range and Livestock Management on		
Southwestern Ranges. With E. L. Flory.....	137-144	
<b>Lazy Mountain</b> , from Matanuska Valley. W. A. Rockie. 284-286		
Leaders, training in farm planning, new approach. O. C.		
Aderhold.....	107-110	
<b>Lespedeza sericea</b> —		
for road cuts and fills. Verne E. Davison.....	186-188	
planting with black locust. J. A. Johnson.....	331-332, 334	
Lessons, from land, teaching in schools. Walter W. John. 102-103		
Livestock—		
management, proper, on southwestern ranges, significance		
in fluctuating forage production. J. L. Lantow and E.		
L. Flory.....	137-144	
range adjustment to, by Acoma and Laguna Indians.		
Dewey Dismuke.....	130-131	
Living, good, on 40 acres. A. L. Harrell.....	307-308, 312	
Locust, black, planting with <i>Lespedeza sericea</i> . J. A. Johnson.....	331-332, 334	
Map, new, tracing by men of the soil.....	214-215	
Maps, colored land-use, guide to farmers. Walter W. John. 236		
<b>MARGRAFF, C. E.</b> , artistic work, description.....	195	
<b>MARK, F. A.:</b> Range Seeding by Airplane. With J. R.		
Roaf.....	270, 272	
Matanuska Valley from Lazy Mountain. W. A. Rockie. 284-286		
<b>McClymonds, A. E.:</b> Of the Farmers, by the Farmers, and		
for the Farmers.....	203-206, 208	
Members, subterranean of soybean, a quantitative study.		
Howard J. Dittmer.....	35-37	
<b>Michigan</b> —		
farm program, cooperative effort.....	293	
Lake Shore, putting the idea of soil conservation district		
to work on. Melville H. Cohoe.....	216-219	
Montesano-Elma-Oakville Soil Conservation District, work. 223		
Munson conservation district, example of democracy at		
grass roots.....	220-223	
<b>National</b> —		
Defense and the C. C. C. H. D. Abbot.....	117-119	
resources and the workshop idea. Helen M. Strong.....	94-95	
Navajos, land, range conservation demonstration. Hugh		
G. Calkins and D. S. Hubbell.....	64-67	
<b>NEUBAUER, THEODORE A.:</b> Farmer Evaluation of Conservation Practices in Southern Plains. With H. H. Finnell. 172-173		
Nevada, key spot project. Charles D. Jarrett.....	277-278	
New England, southern, fertilizer conference. A. T.		
Semple.....	278-283	
New Hampshire, need for a soil conservation districts law.		
J. L. Haddock, K. E. Barracough, and Ford S. Prince. 226-227, 237		
<b>NICHOLSON, ERNEST A.:</b> Water Conservation in Hopi Agriculture. With Guy R. Stewart.....	43-48, 51	
Northern Great Plains—		
native grassland dominants, competition with crested		
wheatgrass. B. W. Allred.....	59-63	
strawberry clover in. Wayne W. Austin.....	35-37	
Oak areas, abandoned and scrubby, land reclamation and		
pasture investigations. Harry M. Elwell.....	328-331	
Oaks, value in soil conservation work. See Back cover,		
May issue.		
Ohio Valley—		
pasture treatment. A. T. Semple.....	6	
tree planting for five years in. J. A. Gibb.....	146-149	
<b>OLSON, LOIS:</b> From the Archives of Old Venice.....	265-268	
Oregon, coastal sand dunes, reclaiming with grass and associated vegetation. T. A. Steele.....	43-44	
<b>OSBORN, BEN:</b> Native Plants Stabilize Pond Shores.....	144-145	
Pacific Northwest, timber and cut-over land problems. J.		
W. Christ.....	153-155, 164	
Palouse Hills, gold and green. Frank B. Harper.....	294-297	
Pasture—		
investigations on abandoned and scrubby oak areas. Harry		
M. Elwell.....	328-331	
management, improved practices, value.....	283	
treatment in the Ohio Valley. A. T. Semple.....	6	
Pastures in Puerto Rico. H. W. Alberts.....	13-18, 23	
Peach orchard, replacing old conservation practices with		
new. John T. Bregger.....	161-163, 164	
<b>PETHERAM, H. D.:</b> The Potato Planter Adapted for Seed-Spotting Forest Trees.....	76-77	
<b>PEVERHOUKE, HENRY M.:</b> Possibilities of Johnson Grass in		
Northwest Texas.....	68-70, 77	
Pine, Norway, use in soil erosion control work. See Back cover January issue.		
Pines, 83,000, planted on Dewey Hill. F. E. Charles and		
Ewing Jones.....	309-312	
Plant material, live, uses in erosion control.....	58	
Plants, native, use in stabilization of pond shores. Ben		
Osborn.....	144-145	
Pond shores, use of native plants in stabilizing. Ben		
Osborn.....	144-145	
Pony, native of Puerto Rico, ancestry.....	1	
Potato planter, adaptation for seed-spotting forest trees.		
H. D. Petheram.....	76-77	
Power—		
electric, aid to soil conservation. Harry Slattery. 232-254, 258		
farm, value of soil-conserving practices. Richard H.		
Flynn.....	49-51	
<b>PRESTON, JOHN F.:</b> Farm Woodland—Farm Economy. 149-151		
<b>PRICE, C. A.:</b> Soil Conservation a Unique Problem in		
Puerto Rico.....	7-9	
<b>PRINCE, FORD S.:</b> Why New Hampshire Needs a Soil Conservation Districts Law. With J. L. Haddock and K. E. Barracough.....	226-227, 237	

Page	Page
Puerto Rico—	
pastures in. H. W. Alberts.....	15-18, 23
soil conservation, a unique problem in. C. A. Price.....	7-9
soil conservation cooperating agencies. <i>See</i> Back cover, July issue.	
soil conservation program. G. L. Crawford.....	3-6
some soils of, and their use capabilities. Jorge J. Landron. 31-32	
water spreading in, attempts. R. C. Clifford.....	25-26, 30
Rain, once-in-a-hundred years. E. B. Garrett.....	228-229, 239
Rains, intensive, on steep slopes, erosive effects, decrease. Joel W. Elliott.....	12-14
Range—	
adjustment of livestock, by Acoma and Laguna Indians. Dewey Diamuke.....	130-131
conservation demonstration in land of Navajos. Hugh G. Calkins and D. S. Hubbell.....	64-67
management, proper, on southwestern ranges, significance in fluctuating forage production. J. L. Lantow and E. L. Flory.....	137-144
seeding by airplane. F. A. Mark and J. R. Roaf.....	270, 272
utilization experiments.....	188
Ranges, southwestern, proper range and livestock management on, significance in fluctuating forage production. J. L. Lantow and E. L. Flory.....	137-144
RAYMOND, ANNE: <i>The Land as a Textbook</i> .....	98-100
Reclamation of Danish heath areas. Melville H. Cohee.....	39-42
Reservoir watersheds, protection through the districts program. Carl B. Brown.....	230-232
Resources, national. <i>See</i> National resources.	
Rio Grande de la Plata and soil conservation. W. G. Kin-cannon.....	9-11, 20
Road—	
cuts, use of <i>Lespedeza sericea</i> . Verne E. Davison.....	186-188
fills, use of <i>Lespedeza sericea</i> . Verne E. Davison.....	186-188
ROAF, J. R.: Range Seeding by Airplane. With F. A. Mark.....	270, 272
ROBINSON, BERT D.: Conservation Education in the Southeast.....	91-93, 95
ROCKIE, W. A.: Matanuska From Lazy Mountain.....	284-286
Rodent erosion, rodentless. R. M. Bond.....	269
ROGERS, ETTA G.: Soil conservation bibliographies. <i>See</i> each issue.	
ROUSE, H. K.: An Ice Storm in Texas.....	241-242, 248
Run-off study.....	297
RUSSELL, HAROLD E.: They Knew What They Wanted. With Frank B. Harper.....	209-212
Sand dunes, coastal, in Oregon, reclaiming by grass and associated vegetation. T. A. Steele.....	43-44
School—	
laboratory, at Cheney. Frank B. Harper.....	112
modern, and land use. Julia B. Tappan.....	88-89
summer cooperative, establishment at Norris, Tenn.....	100
Schools—	
elementary and secondary, soil conservation in. Tom Dale. 101-102	
teach lessons from the land. Walter W. John.....	102-103
Sediment, transportation by flowing water and its importance in soil conservation. J. W. Johnson.....	290-293
Seed-spotting forest trees, adaptation of potato planter for. H. H. Petheram.....	76-77
Seeding, ranges by airplane. F. A. Mark and J. R. Roaf. 270, 272	
Self-governing principles of soil conservation districts. Melville H. Cohee.....	156-160, 164

conservation—continued.

DETROIT. *In Southern Great Plains, farmer evaluation of*

H. H. Finnell and Theodore A. Neubauer. 172-173  
program and size of farm. George W. Collier. 71-73, 77  
program, appraisal by cooperators. C. D. Black. 316-318  
program in Puerto Rico. G. L. Crawford. 3-6  
relation to church prosperity. Charles G. Webb. 169-171  
studies at Congress Heights School, D. C. 110, 111  
conserving practices save farm labor, power, and equipment use. Richard H. Flynn. 49-51  
defense, from ridge to river. L. R. Combs. 286-290  
erosion in Greece. Constantine I. Nevros. 129  
losses from erosion, costs per acre. A. T. Semple. 37  
saving, and maintaining income. David H. Walter. 174-177  
Soil Conservation Service—  
land utilization projects. 75  
stream erosion projects. See Back cover, June issue.  
Soils, of Puerto Rico, and their use capabilities. Jorge J. Landron. 31-32  
Southeast, conservation education in. Bert D. Robinson. 91-93, 95  
Southern Great Plains, farmer evaluation of conservation practices in. H. H. Finnell and Theodore A. Neubauer. 172-173  
Southwest, climate, relation to accelerated erosion. C. W. Thorntwaite, C. F. S. Sharpe, and Earl F. Dosch. 298-302, 304  
Southwestern ranges, proper range and livestock management, significance in fluctuating forage production. J. L. Lantow and E. L. Flory. 137-144  
Soybean, subterranean members of, quantitative study. Howard J. Dittmer. 33-34  
STEELE, T. A.: *Grass and Associated Vegetation to Reclaim Oregon's Coastal Sand Dunes*. 43-44  
STEWART, GUY R.: *Water Conservation in Hopi Agriculture*. With Ernest A. Nicholson. 45-48, 51  
Storm, ice, in Texas. H. K. Rouse. 241-242, 248  
Strip cropping. See Cropping, strip.  
STRONG, HELEN M.: *National Resources and the Workshop Idea*. 94-95  
Sugarcane, soil conservation in. Robert E. Witherell. 27-28  
SULLIVAN, CHARLES B.: *Protecting the Back Slope of Interception Ditches*. 333-334  
Summer planning for winter studies. Frank B. Harper and C. C. Johnson. 105-106  
SUTTON, JOHN G.: *Farm Drainage Operations for the Farm Planner*. 323-327  
Sweetclover, low-coumarin, value in conservation work. 171  
TAPPAN, JULIA B.: *Land Use and the Modern School*. 88-90  
Tar Hollow, conservation-teaching laboratory. F. E. Charles. 104, 106  
Tennessee Department of Conservation, education service, statement by F. E. Charles. 103  
Terrace outlet channels, vegetative protection of. W. López Dominguez. 19-20  
Terraces, bench, of Mucara clay, tillage tests. Robert L. Davis. 21-23  
Texas, northwest, possibilities of Johnson grass in. Henry M. Pevehouse. 68-70, 77  
Textbook, land used as. Anne Raymond. 98-100  
Thirty years of vertical farming. H. H. Bennett. 113-115, 122  
THORNTWTAITE, C. W.: *Climate of the Southwest in Relation to Accelerated Erosion*. With C. F. S. Sharpe and Earl F. Dosch. 298-302, 304
